IDEAS TO **ICONIC** BRANDS

We create powerful brands through innovative design, seamless web development, and strategic digital solutions that connect and engage.

We don't just digitalize products — we create success stories.

THECRUDSTUDIO@GMAIL.COM

WE DON'T DIGITALIZE — WE CRAFT SUCCESS

CRUD (Create Refine Unified Designs) is a dynamic design agency providing end-to-end solutions in brand building, web development, graphic design, and digital marketing. We transform ideas into powerful brands with a seamless blend of creativity and innovation.

Our mission is simple: turn bold ideas into iconic brands, and iconic brands into measurable growth — through design that is as effective as it is beautiful.

FROM TWO PEOPLE TO **TWO CONTINENTS**

2019

THE STUDIO IS BORN

CRUD starts as a two-person design team obsessed with doing fewer things, better.

2021

FULL-STACK DELIVERY

We add in-house engineering — strategy, design and build finally under one roof.

2023

GOING GLOBAL

A second base in Germany opens; we begin serving clients across two continents.

2026

INDUSTRY SHOWCASE

We launch a library of live, industry-specific concepts so clients can see their future site before we build it.

CRAFT IS A COMPETITIVE ADVANTAGE

In a sea of templates, taste is what makes a brand impossible to scroll past. We sweat every pixel, transition and word.

STRATEGY BEFORE PIXELS

Beauty without a goal is decoration. Every decision ladders up to a business outcome we agreed on together.

PARTNERS, NOT VENDORS

We embed with your team, share context openly and tell you the truth — even when it is not what you hoped to hear.

SHIP, LEARN, REFINE

Launch is the start, not the finish line. We measure, iterate and keep compounding results long after go-live.

ONE STUDIO, **EVERY** DISCIPLINE

End-to-end capabilities under one roof — from first sketch to launch and beyond.

01

BRANDING

Brand strategy, positioning and identity systems that turn first impressions into lasting loyalty.

BUILT FOR **BOLD** BRANDS

EXCEPTIONAL TALENT

Your projects are handled by middle and senior designers with proven expertise — every design crafted with precision and creativity that elevates your brand.

SEAMLESS COLLABORATION

Real-time collaboration with our team keeps you involved and informed at every stage while your vision comes to life flawlessly.

UNLIMITED POSSIBILITIES

Unlimited requests, revisions and brand profiles — flexibility that adapts to your evolving business without compromise.

RISK-FREE GUARANTEE

A 7-day money-back guarantee and native source files delivered. Complete peace of mind and full ownership of every project.

WORK THAT **MOVES** THE NEEDLE

Every engagement starts with a business problem and ends with a measurable result. Below is a cross-section of the brands, products and platforms we have designed and engineered — and the thinking behind them.

01

DISCOVER

Stakeholder interviews, competitor teardown and an audit of what you have today. We leave with a sharp problem statement and success metrics.

02

DESIGN

Information architecture, wireframes and high-fidelity UI — designed in the open with you, iterated until it is undeniably right.

03

BUILD

Production engineering with performance, accessibility and SEO baked in from the first commit — not bolted on at the end.

04

LAUNCH & GROW

A confident go-live, analytics wired up, and an iteration plan so the site keeps compounding long after launch day.

HOW IT WORKS

01

SHARE YOUR BRIEF

Send us the form below or a quick email. The more context, the sharper our first response — but even a one-liner is enough to start.

02

DISCOVERY CALL

We hop on a 30-minute call to understand your goals, scope and timeline — and to make sure we are the right fit for each other.

03

PROPOSAL & PLAN

You receive a clear proposal with scope, timeline and fixed pricing. No jargon, no hidden costs, no surprises.

04

KICK-OFF

We schedule the start, set up a shared workspace and get moving — with weekly checkpoints from day one.
